PROJECTS

Virtual HealthCare   GitHub

A full-stack hospital appointment scheduling application using React.js, Node.js, Express.js, and MySQL, enabling easy booking/cancellation for patients and efficient schedule management for hospitals.

React Portfolio   Goto

React portfolio, crafted with Tailwind CSS for sleek, responsive design and animated with Framer Motion. Hosted on Vercel. Explore my projects and skills in an engaging, visually stunning interface!

CRUD App   GitHub

A full-stack CRUD app for efficient data management, built with React, Node.js, and MySQL, ensuring seamless data operations and user interactions.

Weather App   Demo

A sleek weather app providing real-time temperature, humidity, and more for various locations, powered by the OpenWeatherMap API.
